WEDDINGS

Four Kicks have established themselves as one of the most popular wedding bands in Europe performing primarily throughout France, as well as Italy and Switzerland.

They are a professional band of full-time musicians. Therefore, they can confidently guarantee the quality of their performance as music is their primary career.

With many years of experience performing at weddings, Four Kicks is well aware of the importance of communication and planning with clients to ensure a smooth and stress-free event. On the day of the wedding, the band will have set up and sounchecked before any guests arrive.

Additional sound systems are available upon request for cocktail reception or dinner, as well as wireless microphones and an acoustic performance during cocktail hour. There is also a DJ service for clients who choose to keep the party going after the concert has finished.

You can confidently leave everything up to the band, knowing that this is one aspect of the day that no-one needs to worry about.

Dates throughout the high season are filled quickly, so it is advisable to book the band at least one year before the event to ensure their availability.

"This is Katherine's mother. I just wanted to write a quick email to thank you and the band and DJ for your brilliant music at Katherine and Sam's wedding celebration last week. All the guests had an absolutely amazing time; not wanting to leave the dance floor and I haven't danced so much in ages! You really got the music just right. It was brilliant."

Mother of the bride

"We had both been so looking forward to your performance, but despite having watched your videos and heard your demos, we were completely blown away by your set. Many of our guests commented that you were the best band at a wedding they had ever seen. Others wanted to know who you were and where on earth we had found you. Thank you for helping to make our wedding so special."
